MyQ X Sharp Embedded Terminal 10.2 RTM

February 20, 2025

> ℹ **Minimum requirements:**
> - MyQ 10.2 patch 15+
> - Support date 01 January 2025

Improvements

- `NEW FEATURE` Keep job for reprint can be set on the terminal in **My Jobs > Job Properties.**
- General user interface and behavior improvements, including a redesigned tile layout and adjusted font sizes to enhance usability and user experience.
- Remote configuration has been improved for Sharp devices with RED FW.
- Added support for remote installation of Sharp with OSA 6.5.
- Easy Copy – imperial paper formats are now listed for Magnification
- Improved Auto-Logout for scanning operations.

Bug Fixes

- Read-only parameters are displayed for Easy Fax in the Favorite Easy Fax Action.
- The **Stop sending jobs after user logout** option does not work correctly.
- Quota job can start if the quota limit is 0.
- Quota session is not finished properly. (General improvements to Quota behavior).
- Free scan job can be performed when credit is enabled.
- The device is blocked after applying an idle logout from the device native keyboard while editing the text field. (Limitation: Idle logout is applied.)
- Easy scan is discarded if the user session is finished before sending the scan.

Limitations

- Idle logout is applied during the usage of the device native keyboard during editing of the text field.
- The Page Range release option cannot be implemented on Sharp devices.
- Missing feature:
  - External Workflows
