- **NEW FEATURE** Application Terminal action added.
- **NEW FEATURE** Support of Thai, Malay and Vietnamese language.
- **NEW FEATURE** Page range available for printing jobs is supported in My Jobs > Job Properties.
- **LIMITATION** Currently, it is not possible to use Page range for Easy Print jobs.
- Favorite Actions improvement.
- Arrows are displayed on sides in Top Menu on smaller screens for better navigation between Top Menu screens.
- Unused Kyocera specific parameters removed from Configuration profile.
- HW keyboard handling improved.
- Improved activation and (re)connection handling of terminals.
- Scan to me is available only for user with filled e-mail address.
- "ID Card registration failed" message has been improved.
- UI behaviour improvements.

Bug Fixes

- Warning is displayed in the server log after printing from USB.
- Single color copy deducts quota twice.
- Pre saved destination is not used.
- Price is missing next to Print All action.

Supported Devices

- Devices with Netfront browser are not supported within Kyocera 10.2 Embedded terminal.

MyQ Kyocera Embedded Terminal 10.2 BETA

24 January, 2024

Improvements

- **NEW FEATURE** New UI.
- **NEW FEATURE** Favorite Actions.
- **NEW FEATURE** Unknown ID Card Registration

Limitations

- Missing features:
 - Application/Application List
 - ID Card Copy
 - External Workflows
- Supported older devices with older/legacy browsers could look different and may interact more slowly.
