MyQ Lexmark Embedded Terminal 8.1

1 MyQ Lexmark Embedded Terminal 8.1 (patch 7)

20 October, 2023

Bug Fixes

- Custom logo was displayed blurred.
-

2 MyQ Lexmark Embedded Terminal 8.1 (patch 6)

1 September, 2023

Improvements

- **NEW FEATURE**: It is possible to display My jobs immediately after login. At least one job has to be spooled in Ready jobs.
 - **NEW FEATURE**: Lexmark specific parameter is available in Configuration profiles.
 - **NEW FEATURE**: Top menu is available.
-

3 MyQ Lexmark Embedded Terminal 8.1 (patch 5)

21 July, 2023

Device Certification

- Model lines CX73x Series, CX93x Series and CX94x Series added for terminal support. (**LIMITATION**: new devices are not certified yet on the server, because we are not able to add them without certification data.)
-

4 MyQ Lexmark Embedded Terminal 8.1 (patch 4)

1 March, 2023

Improvements

- **NEW FEATURE** ID Card registration terminal action is implemented.
- Displaying of QR code improved.

Bug Fixes

- Favorites in My Jobs weren't working.
 - Incorrect error message was displayed if terminal installation failed because of invalid device's administrator credentials.
 - Jobs were printed in incorrect order.
 - Language of the Login screen wasn't translated.
 - Login via QR code wasn't possible.
 - Login wasn't possible with allowed unsecure communication on the server.
-

5 MyQ Lexmark Embedded Terminal 8.1 (patch 3)

Bug Fixes

- Custom logo wasn't loaded on the login screen.
-

6 MyQ Lexmark Embedded Terminal 8.1 (patch 1) LTS

Bug Fixes

- All jobs were printed after login by card even if Print all after login has been disabled.
 - Fixed card login failure.
-

7 MyQ Lexmark Embedded Terminal 8.1 RC

Improvements

- **NEW FEATURE** Jobs which aren't possible to print because of Job filters (f.e. printing A3 jobs on A4 printer or Color jobs on BW printer) are marked with proper error message.
 - Devices with 4.3" display size are supported for Embedded terminal.
 - Models which should be supported: CS622, CS720, CS725, CS727, CS820, CS827, CS921, CS923, CX622, CX625, MS622, MX522
 - New models will be certified in MyQ server 8.1 RTM+.
 - Devices without HDD are supported. **LIMITATIONS**:
 - custom logo and QR code aren't displayed after Lexmark web service restart immediately, they are displayed after few seconds.
 - critical accounting (loss of power during job) is not working and jobs will not be accounted correctly.
 - machine log is not stored and cannot be received.
 - More options can be set in Job properties in My jobs:
 - color - BW / Color
 - duplex - Simplex / Duplex long edge / Duplex short edge
 - copies
 - toner saving
-
