- Minimum requested support date: **1 November, 2025**

1 What's new in 10.1

Click to see a list of new features available in version 10.1

- Offline login is now available, allowing users to log in and use panel operations even during server downtime.
- Easy Print: browse your cloud storage and print files directly from the device screen.
- Folder browsing for Easy Scan: browse your cloud storage and select a folder directly from the device screen.
- Job Preview: preview your jobs directly on the device screen.
- Improved user interface with new icons and rounded action buttons in the style of MyQ Server 10.1.

2 MyQ Canon Embedded Terminal 10.1 (patch 8)

29 May, 2026

 MyQ Print Server 10.2 patch 24+ is required to use this version.

Changes

- Minimum requested support date changed to 1 November, 2025.

Bug Fixes

- Pop-up window isn't closed automatically after downloading the job for printing for Easy Print in the case job has the icon in the name of the file.
- Special and national characters cannot be used in folders for Easy Print and Easy Scan.
- Terminal database is not correctly uninstalled after the installation of the terminal package from the server.

Device Certification

- Added support for new devices Canon imageFORCE 1643 series, Canon i-SENSYS MF563dw, Canon imageCLASS MF563 series, Canon imageFORCE C3135 series and Canon imageFORCE 4145 series.
-

3 MyQ Canon Embedded Terminal 10.1 (patch 7)

5 March, 2026

Changes

- Minimum requested support date has been changed to 1.1.2025.

Bug Fixes

- Idle logout isn't applied for ID card.
-

4 MyQ Canon Embedded Terminal 10.1 (patch 6)

11 November, 2025

Bug Fixes

- Collation is enabled by default for Easy Copy, pages are sorted incorrectly if more copies are used.
- Duplex Easy Copy is not possible from the glass.
- Job with icon in the jobname blocks the device.
- Easy Scan from glass is rotated about 180° on some devices.

Device Certification

- Added support for new device Canon imageFORCE C3150, Canon imageFORCE C611 series, Canon imageFORCE 8100 series and Canon imageFORCE 710 series.
-

5 MyQ Canon Embedded Terminal 10.1 (patch 5)

28 May, 2025

Bug Fixes

- Restart of MyQ services is required for applying of the terminal customization - custom logo or theme changes.
- Specific paper tray selection in print driver isn't used for jobs printed via MyQ.
- It is not possible to make multipage TIFF via Easy Scan.

Device Certification

- Added support for new device Canon imageFORCE C5100 series, Canon imageFORCE 6100 series and Canon imageFORCE C7165.
-

6 MyQ Canon Embedded Terminal 10.1 (patch 4)

November 27, 2024

Improvements

- **NEW FEATURE** Added support to run multiple package versions at the same time on the Printer Server. **LIMITATION** Only when using 10.2+ Print server.

Bug Fixes

- Some print jobs are not visible in the User Summary Report.
- Restart of the device is required for the custom logo to be applied.

Device Certification
